Certification
Adobe Certified Professional (ACP) 2023-2024

Tutorial Software Version
2023

44h *Estimated Course Duration*

7h *Lesson Video Runtime*

Knowing how to use Adobe After Effects is an essential skill for video editors who want to learn about motion design. In the industry, AE is commonly used for animation, visual effects, and compositing. In fact, After Effects can be useful in many different careers! Let instructor Joe Dockery lead you through this comprehensive course and learn everything you need to start editing video like the pros. Then, use your newfound knowledge to get certified!

NEW After Effects

Certification
Adobe Certified Professional in Visual Effects & Motion Graphics Using Adobe After Effects 2025 - 2026

Tutorial Software Version
2025

Motion Design is a major part of video production mastery! After Effects is a deep and complex program that is capable of impressive animation and visual effects; and navigating all the techniques and the Certiport Certification exam can be overwhelming! This course will take students on an exciting journey acting as junior motion designers for an upcoming music festival — creating awesome motion assets along the way.

Coming in May 2026

Firefly

Certification
Adobe Certified Professional in Product and Experience Design with AI using Adobe Firefly

Generative AI has taken the world by a storm and Adobe's very own Firefly has been a global player in recent years. This course will guide students through a journey of creation, generation, and exploration of prompt engineering, text-to-video, and so much more! Learn how to set the right settings, understand the basics of generative AI, and create your own digital assets. Get ready to pass the Adobe Firefly Certification Course and prove your AI readiness today!
