COURSE DESCRIPTION

Step into the world of professional video editing! In this hands-on course, students will learn to plan, produce, and edit engaging video content using Adobe Premiere Pro. From storyboarding and scriptwriting to sound design, editing techniques, and accessibility standards, this course covers the post-production pipeline. Students will explore essential concepts like non-linear editing, frame rates, audio mixing, text overlays, and intellectual property while building the skills needed to create high-quality, audience-focused videos. Whether you're crafting a short film, YouTube video, or class project, you'll leave this course ready to bring your vision to life on screen—and prepared to take the Adobe Certified Professional (ACP) exam in Premiere Pro.

MAIN INGREDIENTS

- Module 1:** Social Promo for Barbershop
- Module 2:** Fire Science Academy Recruiting Video
- Module 3:** Horror Movie Chase & Dialogue Scene
- Module 4:** College Basketball Athlete Showreel
- Module 5:** Quick Hits & Challenge Projects

Tommy Demos is a Professor of Film, Television & Digital Production who has been an active design professional and educator for over a decade. He holds an MFA in Film Production, a PhD in Leadership & Computer Information Security, and specializes in teaching video editing and motion design to students of all ages. Dr. Demos is a managing member of Wise Up Digital, a creative agency that provides digital production services to clients as well as design technology education to students and faculty across the nation.
